JUVÉDERM VOLBELLA[®] XC Important Information

APPROVED USES

JUVÉDERM VOLBELLA[®] XC injectable gel is for injection into the lips for lip augmentation and for correction of perioral lines in adults over the age of 21.

IMPORTANT SAFETY INFORMATION

**Are there any reasons why I should not receive
JUVÉDERM VOLBELLA[®] XC injectable gel?**

Do not use this product if you have a history of multiple severe allergies or severe allergic reactions (anaphylaxis), or if you are allergic to lidocaine or Gram-positive bacterial proteins used in these products.

Please see additional Important Safety Information inside.

SOMETHING SUBTLE THAT'S PROVEN TO *Last*

Some women may wish to add subtle volume to their lips; others may want to soften the appearance of the vertical lines above them. Lines such as these are often caused by factors such as sun exposure or repeated muscle movement.

Fortunately there's JUVÉDERM VOLBELLA® XC—the **first** and **only** FDA-approved filler proven to increase lip fullness **and** soften the appearance of vertical lip lines for **up to 1 year**.*

*With optimal treatment.

JUVÉDERM VOLBELLA® XC may be right for you if:

- ✓ You would like to **add subtle volume** to your lips
- ✓ You would like to **soften the appearance of your vertical lip lines**
- ✓ You want **natural-looking, long-lasting results**

IMPORTANT SAFETY INFORMATION (continued)

What precautions should my doctor advise me about?

- Tell your doctor if you are pregnant or breastfeeding. The safety of JUVÉDERM VOLBELLA® XC for use during pregnancy or while breastfeeding has not been studied
- The safety of JUVÉDERM VOLBELLA® XC in patients under 22 years has not been studied
- The safety and effectiveness of JUVÉDERM VOLBELLA® XC in areas other than the lips and perioral area have not been established in controlled clinical studies

Please see additional Important Safety Information on following pages.

SOMETHING THAT'S PROVEN TO INCREASE *Satisfaction*

LIPS

96%

SOMETHING *Subtle* THAT *Makes a Difference*

Before

After 1 month

Before

After 1 month

Ask us how you can get subtle, long-lasting results with JUVÉDERM VOLBELLA® XC.

Actual patient. Results may vary.

Unretouched photos taken before treatment and 1 month after treatment. A total of 1.2 mL of JUVÉDERM VOLBELLA® XC was injected in the lips.

IMPORTANT SAFETY INFORMATION (continued)

What precautions should my doctor advise me about? (continued)

- Tell your doctor if you have a history of excessive scarring (eg, hypertrophic scarring and keloid formations) or pigmentation disorders, as use of JUVÉDERM VOLBELLA® XC may result in additional scars or changes in pigmentation

- Tell your doctor if you are planning other laser treatments or a chemical peel, as there is a possible risk of inflammation at the treatment site if these procedures are performed after treatment
- Patients who experience skin injury near the site of injection with this product may be at a higher risk for side effects

Please see additional Important Safety Information on following pages.

SOMETHING *Subtle* THAT

Makes a Difference

Actual patient. Results may vary.

Unretouched photos taken before treatment and 1 month after treatment. A total of 1.75 mL of JUVÉDERM VOLBELLA® XC was injected—0.7 mL in the perioral lines and 1.05 mL in the lips.

Ask us how something subtle can make a difference for your lips and the lines around them.

IMPORTANT SAFETY INFORMATION (continued)

What precautions should my doctor advise me about? (continued)

- Tell your doctor if you are on immunosuppressive therapy used to decrease the body's immune response, as use of JUVÉDERM VOLBELLA® XC may result in an increased risk of infection
- Tell your doctor if you are using medications that can prolong bleeding, such as aspirin, ibuprofen, or other blood thinners, as this may result in increased bruising or bleeding at the injection site
- Minimize strenuous exercise, exposure to extensive sun or heat, and alcoholic beverages within the first 24 hours following treatment

Please see additional Important Safety Information on back page.

“ I wanted my lips to be a bit fuller and to soften the lines above them. With JUVÉDERM VOLBELLA® XC, I was able to do both and get the subtle results I wanted. ”

IMPORTANT SAFETY INFORMATION (continued)

What are possible side effects?

The most common side effects include swelling, tenderness, bruising, firmness, lumps/bumps, redness, pain, discoloration, itching, and dryness. Most side effects are mild or moderate and last 30 days or less.

One of the risks with using this product is unintentional injection into a blood vessel, and, while rare, the complications can be serious and may be permanent. These complications, which have been reported for facial injections, can include vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring.

As with all skin injection procedures, there is a risk of infection.

To report a side effect with JUVÉDERM VOLBELLA[®] XC, please call Allergan at 1-800-433-8871. Please also visit Juvéderm.com for more information.
